

Experience & High-tech, Cutting-edge Technologies Create a Masterpiece!

Provided By Vein Specialty Center

As an experienced surgeon, Dr. Larry Stern has devoted much of his career to the treatment of varicose veins and venous diseases. Dr. Stern and his staff at the

Vein Specialty Center in Wooster, Ohio, offer the most advanced techniques for the treatment of unsightly and symptomatic varicose veins.

Dr. Stern has been treating vein disorders for over 20 years. He is recognized as a pioneer in the treatment of venous problems. He was among the first physicians in the country to achieve board certification in Phlebology, which is the specialty dedicated to the diagnosis and treatment of vein diseases. He also holds board certification in General Surgery. Dr. Stern received his medical degree from The Ohio State University College of Medicine, and is fellowship trained in Vascular Surgery at the Arizona Heart Institute. He is a member of numerous distinguished medical societies.

The Vein Specialty Center offers the most advanced vein treatments, which are minimally in-

vasive and are performed on an outpatient basis. High-tech lasers and other cutting-edge technologies are utilized to treat varicose veins, eliminating the need for incisions, and resulting in rapid recovery and return to normal activity. State-of-the-art ultrasound imaging is utilized on site for the diagnosis of venous disorders, and as guidance for many of the therapeutic interventions. A Registered Vascular Technologist on the staff adds many years of experience to the specialized team.

Recognized for his accomplishments in the treatment of varicose veins, Dr. Stern has served as a consultant in his field, and has trained physicians from major medical centers in Ohio. He is the only physician to offer such advanced vein care in Wayne County, and serves patients from five nearby counties.

The revolutionary treatments at the Vein Specialty Center are truly changing lives. The satisfaction achieved by restoring a normal appearance to an unsightly leg, and elimination of the painful symptoms, is beyond description. The aesthetic and symptomatic improvements routinely achieved by these advanced procedures are continually inspiring to Dr. Stern and his staff.
